

Knowledge and skills template for healthcare professionals supporting but not carrying out vascular checks

To support vascular checks in primary care		
<div style="display: flex; align-items: center;">  <p style="font-size: small; margin: 0;"><i>Place a tick in the right hand column every time you identify a gap in your knowledge and / or skills. Use this data to inform your professional development plan and support your case for education.</i></p> </div>		
You need to know:	Who should be risk assessed according to Department of Health vascular checks policy	
	How they can access risk assessment	
	What the common risk factors are	
You need to be able to:	Refer patients for a vascular check	
	Refer them to the right professional for support to reduce their risk
